

# TAKA HAIR SALON SODA SPA

## WHAT IS THE SODA SPA?

SODA SPA is warm water which contains CO<sup>2</sup> gas. The Japanese Law of Hot Spring states that a Soda Spa is warm water which contains more than 0.25g of CO<sup>2</sup> gas (250ppm). One liter of warm water which contains more than 1g(1,000ppm) is considered the best Soda Spa, and the most effective.

## MEDICAL USAGE

SODA SPA is used for treating diabetes in the world. SODA SPA has also been used for prevention and improvement of obstructive arteriosclerosis (ASO), which is the cause of necrosis in toes, improvement of insulin resistance, which is effective in treating diabetes, and a treatment for diabetic neuropathy.

## PRICING

Single Session **\$60**

Set of 5 Sessions **\$225** (1 time \$45)

Set of 10 Sessions **\$350** (1 time \$35)

## FROM THE OWNER:

I think that the Soda Spa is great for improving forgetfulness, headaches, stiff shoulders, etc. due to a decrease in cerebral blood flow. A cause of this imbalance could be electromagnetic waves, emitted by things like mobile phones, and that is worrisome to me.

I enjoy cleaning my hair and scalp well, but I more enjoy the rejuvenating effect on my face (I look forward to seeing my face with the mirror in the next day), and improving the circulation of my head area, especially cerebral blood flow. Perhaps, the difference in finding joy depends on one's age. I am deeply pleased to be able to offer this wonderful service, and I believe it is best if you are able to get a Soda Spa Session at least once a month. It is so beneficial for health, beauty, and relaxation. I am sure you will enjoy it!

# TAKA HAIR SALON SODA SPA

## 5 REASONS WHY WE RECOMMEND THE SODA SPA:

### 1. IMPROVES BLOOD CIRCULATION. NOT ONLY ON YOUR HEAD, BUT ALSO YOUR ENTIRE BODY.

Before

Blue indicates a low body temperature

After

As Orange increases, it indicates a rise in body temperature

After an hour and a half

Body temperature can stay elevated after a period of time

### 2. HAIR FOLLICLES ARE CLEANED, REMOVING ODORS FROM HAIR AND SCALP

Before

After

Blood flow before (cluttered)

Blood flow after (smooth)

### 3. CREATES A HEALTHY HAIR GROWTH ENVIRONMENT

CO<sup>2</sup> penetrates to your body's blood vessels

Our bodies consider CO<sup>2</sup> as waste, so it sends more Oxygen to try and discharge it

As a result, our blood vessels expand, allowing more oxygen throughout our body

Because more oxygen is occupying our blood, circulation will increase, and CO<sup>2</sup> will be exhaled through the lungs.

By vasodilation, blood circulation increases, and sends Oxygen and nutrients to your hair matrix cells, which leads to a healthy environment for growing hair.

### 4. HAIR BECOMES SHINY AND SMOOTH

Before

After (No Conditioner)

### 5. ANTI-AGING

Before

After Soda Spa
